

Child Profile

Child Details	
Name:	
Date of birth:	

Background Information	
Medical conditions requiring medication:	
Other diagnoses:	
Dietary requirements:	
Cultural background:	
Dietary requirements:	

Social/Emotional	
How does your child interact with others/in a group?	
How does your child react when challenged by another child?	
Does your child understand social cues?	
How does your child react when happy/sad/angry or frustrated?	

Child's Interests/Strengths	
Favourite experiences/activities:	
Things they find challenging:	

Communication

How well does your child communicate? Can they follow instructions?

Are there any restrictions to communication and what strategies do you use to assist your child?

Self-help/Cognitive/Physical

Does your child require any assistance in relation to skills such as dressing (may be relevant for pool excursions or if they have an accident) or choosing activities?

Does your child require assistance for cognitive functions, such as concentration or recognising dangerous situations?

Does your child require assistance with physical skills, such as walking or balance? If so, what assistance is required and is any equipment necessary?

Strategies to Support Your Child

What strategies do you use at home and what do you believe will support your child in the Kidzone environment (including incursions and excursions)?

Further Information
